Overall dimensions are yours; machine positions are read from the photographs.
The 8.96 × 4.28 m envelope and the 4 / 3 machine split are as supplied. Where each machine sits along its wall is scaled from the top-view photograph and may be out by a few hundred millimetres — mark the floor from the machines themselves, not from this drawing. The alcove store is not shown: it sits outside this envelope and needs its own dimension.
